

Career Opportunity

Role: Product Support Technician

Location: Luton, Bedfordshire

AEM, with its head office at Stansted Airport, is a subsidiary of AMETEK. As part of AMETEK's Aerospace & Defense Division, AEM is one of the largest independent aircraft component repair and over haul facilities in Europe.

We have an immediate full-time vacancy, at our Luton site for a Product Support Technician; this is a permanent role, and reports to the Product Engineering Supervisor.

Job Purpose:

To assist with the addition of new rewind capability either through OEM or Part 21J projects and to help support existing capability in conjunction with the Production Department.

Main Tasks:

To work within the Engineering department to support AWBU New Product Introduction (NPI) projects and support Production on existing capabilities.

Qualifications:

- Essential – None
- Desirable – Maths and English GCSE. A recognised Engineering apprenticeship.

Experience:

- Essential – Previous experience working with electrical wound components and assemblies.
- Essential - Able to read drawings and manuals. Able to use basic measuring equipment.
- Desirable – Previous experience working with Integrated Drive Generators (IDG's), Generators and Motors.

Competencies:

- Ability to work well in multidiscipline/cross-functional teams
- Excellent interpersonal skills and ability to build close-knit relationships
- Strong analytical, administrative and organisation skills and excellent attention to detail
- Innovative and enthusiastic
- Ability to work under pressure, to tight deadlines and multi task
- Strong communicator (written and verbal)
- Creative and outgoing
- Well organised and self-motivated

Additional Information:

Salary: Competitive, depending upon experience

To apply for this role please submit your CV, with a covering letter and salary expectations to Janine Barber, HR Advisor; e-mail Janine.barber@ametek.com
